

Infosys BPO Finance and Accounting (F&A) Practice

As finance functions seek to keep pace with mounting business and regulatory demands, the CFOs are expected to drive effectiveness, provide 'financial conscience' and make finance function lean and efficient. Additionally, the board expects them to provide a financial structure which is agile, connected with the rest of the organization, automated and completely metric driven. Infosys BPO has been first choice of CFOs aiming to achieve the desired state of finance function through transformational outsourcing partnerships. Across the globe Infosys has been working with leading CFOs in providing them with innovative business process management solutions that can help transform their finance organization into a world-class function in terms of role, performance and finance functional cost structure.

Infosys BPO F&A Practice Service Offerings

Since its inception in 2004, F&A practice has been one of the largest and fastest growing segments in Infosys BPO, contributing to over 40% of annual revenues. The practice offers the entire gamut of processes across

F&A activity spectrum- from pure-play transactional services to high-end services such as SEC reporting, SOx compliance, Tax, VAT, GAAP-IFRS convergence support etc. Our consistent leadership position rankings in the

Gartner's F&A Magic Quadrant, Everest FAO PEAK Matrix and other analyst reports are a testimony to our completeness of vision and execution capabilities.
